REGISTRATION

A minimum of six paying students is usually required to support a course. If fewer than six paying students register for a course, the course may be canceled at the discretion of the instructor. To allow for late registrations, a course will not be canceled for lack of interest until the day before the class is to start. All courses, dates, times and fees are subject to change without notice.

Note 1: I do not deposit any checks until all classes which start within about a week of each other have begun, so you may have to wait an extra month or so (depending on when you write your check and the last class starts) for your check to clear your financial institution.

Note 2: I prepare personalized material for all students before the first session of each class so please contact me before the first session if you plan to attend a class.

Advance Registration

I have implemented a simple two-step advance registration process for ALL students for ALL courses.

BE SURE TO FOLLOW THIS PROCEDURE TO RECEIVE A \$25 TUITION DISCOUNT (WHEN APPLICABLE) AND AVOID A POSSIBLE MATERIALS SURCHARGE FOR EACH COURSE YOU WISH TO TAKE.

Step 1 – Notify me by postal mail, email, phone (see CONTACT INFORMATION above) or in person during the advance registration period for any course you wish to take. See the **AT-A-GLANCE FOR 2022|2023/Key Dates** section on page 4 for the dates of the advance registration periods for the various classes. Include the following information:

1. First and last name (As you would like it on your name tag.)
2. The numbers of the courses you wish to take (100B, 101A, etc.)
3. Sharing authorization^{1,2}
4. Mailing address^{2,3}
5. Email address²
6. Home phone²
7. Work phone²
8. Cell phone² (optional – I use this only for emergencies unless it is your only phone)

¹I sometimes get a request from a student for another student's contact information. Please let me know if you are willing to share your contact information with other students if requested.

²These items may be omitted if you are **absolutely sure** I have your current information on file.

³I can usually pick this up from a return address or check.

If appropriate, I will reply to let you know I received the information.

Step 2 – Send or hand deliver to me a check (payable to Dave Glandorf), money order or cash (please do not mail cash) in the total amount of all of the tuition and materials fees for the courses you wish to take. Make sure you mail or deliver this in a timely manner so that I **receive it** by the end of the advance registration period. You may skip this step if no fees are due. **If appropriate, be sure to deduct the \$25 discount for advance registration.** (All listed fees are without the \$25 deduction.)

If appropriate, I will notify you by email or phone when I receive your payment and hold it until the start of the class or shortly thereafter. If you wish to cancel your registration before the end of the advance registration period, notify me by phone or email and I will return your payment. If you decide to cancel your registration after the end of the advance enrollment period but before the start of the class, I will return your payment less the cancellation fee(s) for the course(s). (Yes, you may take more than one course at a time, especially if you are repeating a course.) All appropriate advance registration fees will be returned to the sender if a course is canceled due to lack of interest.

Special note to new students in Bridge 100B: If you are not sure if you really want to get into this game, go ahead and register (preferably in advance) and come to the first class session. If you then decide not to continue, I will return your full registration fees.

Late Registration

Students who do not register in advance may register later, usually up until the start of the second class session. Registration after the second class session will be considered on an individual basis. New students in Bridge 100B will not normally be permitted to register after the first class session unless they have some previous experience.

Students who do not register in advance are not eligible for the \$25 advance registration tuition discount. You also may not receive all your course materials until the second week of class or perhaps even later. There may also be a materials surcharge fee.

Cancellation

There will be a \$25 cancellation fee for any course cancelled by a student after the close of the advance registration period.

NON-STANDARD TUITION AND OPTIONAL MATERIALS FEES

Students who wish to repeat a major course (Bridge 100B, 101A, 101B, 110, 120,130,140, 200A, 200B, 210 or 220) may do so with a credit of 50% of the tuition fee they paid the last time they took that course or a comparable course.

I am also willing to work out special arrangements for students who miss a significant number of sessions due to unforeseen circumstances, such as an illness, accident, natural disaster, etc.

Contact me if you would like to audit a major course. Perhaps you are an experienced player who would like to attend a course with a friend or spouse who is just learning the game, or you are just interested in observing the presentation process. I will consider waiving the tuition fees in these cases.

Students registering after the advance registration deadline may be subject to a materials fee surcharge to cover the additional cost of shipping and handling.

Special decks of cards for the practice deals used in many courses may be purchased at a cost of \$5 each, subject to availability.

AT-A-GLANCE FOR 2022 | 2023

Schedule

Year		2022			2023		
Trimester		1 st	2 nd	3 rd	1 st	2 nd	3 rd
Months (Approximate)		Jan – Mar	Apr – Jul	Aug – Nov	Jan – Mar	Apr – Jul	Aug – Nov
Monday ¹	2:00 – 5:00	101A	210	100B	100PB	100B	101A
	6:45 – 9:45	100B ^a	–	200A ^a	100PA ^b	100PB ^b	TBD
Tuesday ¹	6:45 – 9:45	100PA ^b	100PB ^b	–	TBD	TBD	TBD
Wednesday	2:00 – 5:00	110	–	–	–	–	–
Thursday	9:00 – 12:00	130/140	100B	101A	101B	100PA	100PB
	2:00 – 5:00	100B	101A	101B	100PA	100PB	100B

¹Two classes may be scheduled for Monday and Tuesday evenings. The ‘class’ room and ‘game’ room are both available for classes on those evenings. But the ‘game’ room has limited visual aid functionality so only classes that have minimal lecture requirements can be given there. If two classes are scheduled, the ‘a’ classes will be held in the ‘class’ room and the ‘b’ classes will be held in the ‘game’ room, otherwise the class will be held in the ‘class’ room.

In addition to the above courses the Bridge Lab (100BL) will run virtually continuously throughout the year on Tuesday and Sunday afternoons from 2:00 to 5:00, except for the Tuesday of the Lone Star Regional (see detailed schedule on page 6) and the following holidays: Easter Sunday, Mothers’ Day, Fathers’ Day, Christmas Day, New Years Day.

Key Dates

First Trimester Classes

Sunday, December 5 – Advance Registration opens for all first trimester classes

Sunday, December 26 – Advance Registration ends for all first trimester classes

Sunday, January 9 – Start of first trimester, all classes begin this week except for Bridge 130 (February 3) and Bridge 140 (March 3).

Second Trimester Classes

Sunday, April 10 – Advance Registration opens for all second trimester classes

Sunday, April 24 – Advance Registration ends for all second trimester classes

Sunday, May 8 – Start of second trimester, all classes begin this week

Third Trimester Classes

Sunday, July 24 – Advance Registration opens for all third trimester classes

Wednesday, August 7 – Advance Registration ends for all third trimester classes

Sunday, August 21 – Start of third trimester, all classes begin this week

Fees¹

Course	Tuition ²	Materials ³	Total
100B	\$175	\$35	\$210
100BL	\$8/session

OVERVIEW OF COURSES

Curriculum

The current curriculum consists of 14 separate courses:

- Bridge 100B – Beginning Bridge
- Bridge 101A – Bidding I
- Bridge 101B – Bidding II
- Bridge 100PA – Beginner Practice I
- Bridge 100PB – Beginner Practice II
- Bridge 110 – Two over One Game Force
- Bridge 120 – Card Play I
- Bridge 130 – Defense
- Bridge 140 – Slam Bidding
- Bridge 200A – Modern Conventions I
- Bridge 200B – Modern Conventions II
- Bridge 200P – Intermediate Practice
- Bridge 210 – Intermediate Declarer Play
- Bridge 220 – Card Play II
- Bridge 100BL – Bridge Lab

The “100” series of courses are essentially “beginner” courses while the “200” series are in the intermediate to advanced level. New students who have some previous bridge experience and are familiar with the mechanics of the game and feel somewhat comfortable playing the cards as declarer and defending might choose to skip 100B and start with 101A. These students could take 120 after 101B if they thought they needed more instruction in basic card play. However, 120 is not included in my regular schedule and will be offered only if there is sufficient demand and a time slot is available. Otherwise, the courses should be taken in the order listed except as noted in the discussion of specific courses below.

Most courses are scheduled on a trimester basis with each course meeting once a week for 3 hours, with some weeks skipped because of conflicts.

The first five courses are usually offered in various time slots (Monday afternoons or evenings, Tuesday evenings, Wednesday afternoons and Thursday mornings or afternoons – other times are also possible) and staggered throughout the year. After Bridge 100B is given on a particular day/time, the other courses are offered on the same day/time in the proper order in subsequent trimesters.

Bridge 100B – Beginning Bridge

Bridge 100B is the starting course for students who have no knowledge of the game or at best, a minimum exposure by observation or perhaps by having played a little in the distant past. In this course the student learns the basic mechanics of the game of bridge, hand evaluation and fundamental card play techniques.

This is a 13-week course with each 3-hour class period approximately equally divided between

- 1) lecture and class exercises
- 2) play of four (approximately) deals designed to utilize the ideas presented in the lecture and exercises

There is a short break near the middle of the session.

If you enroll in this course you are strongly encouraged to also start attending Bridge 100BL after the first few weeks of 100B.

Bridge 100BL – Bridge Lab

This is essentially a pay-as-you-go “lab” course to give students a chance to gain additional practice in a monitored environment. Students enrolled in 100B play a simplified form of bridge called MiniBridge. Students enrolled in 101A will also find this useful for the early weeks of that course. Students with bidding experience participate in a monitored play setting where they can ask questions and get advice on bidding and play during or after each deal. All players stay at the same table during the session and play at their own pace so this is a good opportunity to get together with your friends or just come on your own (we will provide partners if needed) for a relaxed learning session. This has become a very popular course. No advance registration is required so feel free to “drop in” anytime.

Bridge 101A and 101B – Bidding I & II

These second and third courses in the series address all of the elementary aspects of bidding in the game of bridge. Mastery of the material presented in this course and the previous course will allow the student to fully participate in a bridge game with more experienced players.

The length and structure of these courses is the same as for Bridge 100B.

Bridge 100PA and 100PB – Beginner Practice I & II

Bridge 100PA is a 13-week course providing students the opportunity to gain more experience in all of the material presented in Bridge 100B and 101A/B. Each session is devoted to the play and discussion of eight deals covering the topics presented during the three main courses. The course consists of three 4-week segments covering the general material of the three main courses plus one extra week. The first segment emphasizes bidding, the second segment focuses on declarer play and the third segment concentrates on defense. Bridge 100PB is similar to Bridge 100PA. The first two segments focus on major suit raises while the third segment emphasizes modern notrump bidding. The final week of each course is included as a general application session.

Note: Bridge 100PB was designated as Bridge 100P prior to the third trimester of 2014.

Bridge 110 – Two over One Game Force

This 10-week course presents a popular extension to standard bidding which greatly simplifies many bidding sequences and is used by many experienced bridge players. The first eight weeks of this course alternate between lecture and practice play. The final two weeks provide additional practice play opportunities. It is appropriate for students who have a firm understanding of the basic bidding concepts presented in Bridge 101A and 101B.

Bridge 120 and 220 – Card Play I & II

These two 13-week courses focus on play of the cards as declarer and defender. They both use the same student text, “Watson’s (Classic Book on) the Play of the Hand at Bridge” by Louis Watson, Sterling Publishing Company, Inc., c. 1958.

Bridge 120 is very similar to Bridge 100B but for students who have some bridge experience. The focus is on play of the cards just as 100B but does not include all the bridge “mechanics” presented in 100B and actual bidding is done for the practice deals. Bidding will not be addressed in any detail in the lectures, but some commentary will be provided with the practice deals. This course will cover Part 1 of the student text, approximately two chapters per week.

Bridge 220 covers Part 2 of the student text, approximately one chapter per week. These topics cover more advanced topics of play by declarer and defender. This course is not recommended for beginners, but for players with a few years of experience who want to take their game to another level.

Bridge 130 – Defense

This 4-week short course focuses on all aspects of defensive card play, going into more details than that covered in Bridge 100B and Bridge 120/220.

Bridge 140 – Slam Bidding

This 4-week short course focuses on the detailed aspects of bidding slams.

Bridge 200A and 200B – Modern Conventions I & II

This course reviews some of the conventions presented in Bridge 101B but also covers many more conventions that are popular among intermediate and advanced bridge players.

Bridge 200P – Intermediate Practice

Bridge 200P is an 8-week course providing students the opportunity to gain more experience in many of the ideas presented in Bridge 200. Each session is devoted to the play and discussion of eight deals focusing on some of the more advanced topics of Bridge 101A/B and 200. The course consists of two 4-week segments. This course is not currently included in my regular schedule.

Bridge 210 – Intermediate Declarer Play

This is a new course being introduced in the third trimester of 2019. There is one week of lecture covering various aspects of declarer play, many of which were not covered in the basic 100 series. The last twelve weeks are devoted to “real world” application of the principles discussed in the first week by playing nine deals each week. Each deal requires the use of one of the ideas presented in the first week, but the student must decide which technique is applicable.

PUNCTUALITY

There is a tremendous amount of material to be covered in each class session, so it is important to start each session in a timely manner. To encourage early arrival, I will try to arrive at the site 10 minutes early to set up the facility for the lesson. Approximately five minutes before class time, I will begin taking attendance and then start the lesson promptly at the

appointed time for the class. Please cooperate by arriving five to 10 minutes early. Please contact me ahead of time if you would like to meet with me earlier to discuss any problems you may be having with the course material. I will also usually have a little time after classes to answer questions if you are not able to arrive extra early.

Note: If you have difficulty arriving promptly because of work or traffic, come as soon as you can. I would still enjoy having you in my class.

LOCATION

All classes will be held at the Clear Lake Bridge Club, 16614 Sea Lark in Clear Lake City (281-480-1911).

Directions going Northwest on El Camino Real from Bay Area Blvd:

Turn left at the first street (approximately across from Mr. Gatti's in the strip shopping center on the right) onto Sea Lark. Proceed one short block and follow the forced right-hand turn - you will still be on Sea Lark. The Bridge Club is in the third building on your left.

Directions going Southeast on El Camino Real from El Dorado Blvd:

Turn right onto Ramada at the Walgreen's Pharmacy. Go one block and turn left onto Sea Lark. The Bridge Club is in the third building on your right.

The building is set back some distance from the street with a parking lot for about 25 vehicles in front of the building.

There is a sign centered on the sloping roof of the building.

If the parking lot is full you may park in the street or in the Molly's Pub or Cellar Bar night club lots directly across the street during the daytime (until approximately 2:00 PM), but please do not park in the spaces nearest the entrances.

INSTRUCTORS

I plan to personally teach all of the major standard courses (100B, 101A/B, 110 120, 200 and 220). My colleague George Wieland has agreed to teach the practice courses (100PA and 100PB) for 2022. There is always the possibility that unforeseen circumstances will require occasional substitutions. I currently have a team (Dave Bradt, Bob Dowlen, Jim Ochsner and Marsha Shortt) assisting me on a rotating basis with the Tuesday Bridge Lab (100BL) if needed and Dave Bradt or Marsha Shortt will sometimes cover the Sunday Bridge Lab if I am unavailable.

I am an accredited ACBL teacher with the following additional credentials:

Certified ACBL Director

2013 American Bridge Teacher's Association (ABTA) – Master Point Press Teacher of the Year

2016 American Contract Bridge League District 16 Teacher of the Year

ABTA Master Teacher

Bob Dowlen and George Wieland are accredited ACBL teachers.

DUPLICATE BRIDGE VS. PARTY BRIDGE

I sometimes hear someone claim that I teach duplicate bridge in my courses. Well, that is not true. What I teach is **contract** bridge. This is the game that both duplicate and party bridge players play. In both versions of the game, you shuffle and deal the cards, conduct the bidding auction to determine a final contract and a declarer, play the cards and score the result. The main differences between the two forms of the game are the environment and the scoring method. Whichever version you would like to play, my classes are designed to get you started on a firm foundation or improve your game.

CLEAR LAKE BRIDGE CLUB

The Clear Lake Bridge Club (CLBC) is an incorporated bridge club sanctioned by the American Contract Bridge League (ACBL) to hold bridge games. This club is open to the general public with nominal annual membership dues of \$20. The Clear Lake Bridge Club provides many weekly opportunities for bridge players of **all** levels of experience to play in duplicate bridge games. Most of these games last about three hours or a little longer. You can find more information about the CLBC at their web site and get game results very shortly after a game has been completed at the Unit 174 web site. See the RECOMMENDED WEB SITES section on page 13.

Schedule of Duplicate Bridge Games at the Clear Lake Bridge Club
(All games are open to all players unless otherwise noted)

Wed	10:00	Sat	1:00
		Sun	1:00 ²

¹This is a game for advanced intermediate level players (0 – 749 Masterpoints)

²This is a Swiss Team Game instead of a regular duplicate game.

The entry fee is \$5 per player per game (\$6 if not a Club member)

Need a Partner? – See the Clear Lake Bridge Club website on page 11 .

Plan to arrive at least 10 minutes before game time, 20 – 30 minutes if you do not have a partner.

You are welcome and encouraged to come and observe. Tell the game director (just ask for him/her when you arrive) that you would like to kibitz. The director will find an experienced player for you to watch. You need not stay for the entire game if you are not playing. There are really only two rules for kibitzing. Look at the cards of only one player and refrain from making comments or asking questions during the bidding or play.

AMERICAN CONTRACT BRIDGE LEAGUE (ACBL)

The American Contract Bridge League is the sanctioning body for duplicate bridge in North America. If you are a member of the ACBL and play in a sanctioned game at a club or a tournament, you have an opportunity to win masterpoints.

Masterpoints are awarded to the top 40% of the participants in an event. The number of points awarded depends on the rating of the event and the number of tables in play. Tournaments have higher ratings than club games and large games award more points than small games. Masterpoints are also pigmented. Points won at club games are black (B). Points won at tournaments may be black, silver (S), red (R), gold (G) or platinum (P), depending on the level of the tournament and the event.

By earning masterpoints you can achieve various rankings. The more points you earn the higher your ranking. As of 2017 the rankings and the required masterpoints are

<u>Ranking</u>	<u>Required Masterpoints</u>
Rookie	>0, <5
Junior Master	5
Club Master	20 (5 B)
Sectional Master	50 (10 B, 5 S)
Regional Master	100 (15 B, 15 S, 5 R/G/P)
NABC Master	200 (20 B, 25 S, 15 R/G/P, 5 G/P)
Advanced NABC Master	300 (50 B, 50 S, 25 R/G/P, 25 G/P)
Life Master	500 (75 B, 75 S, 50 R/G/P, 25 G/P)
Bronze Life Master	LM with 750
Silver Life Master	1000 (200 S/R/G/P)
Ruby Life Master	1500 (300 S/R/G/P)
Gold Life Master	2500 (500 S/R/G/P)
Sapphire Life Master	3500 (350 S/R/G/P, 350 G/P)
Diamond Life Master	5000 (500 S/R/G/P, 500 G/P)
Emerald Life Master	7500 (1500 S/R/G/P, 750 G/P)
Platinum Life Master	10,000 (2000 S/R/G/P, 900 G/P, 100P)
Grand Life Master	10,000 (1000 S/R/G/P, 900 G/P, 100P)*

*The Grand Life Master level has some additional requirements.

For many duplicate players the “holy grail” of bridge is to become a life master (LM). If you were an ACBL member at the end of 2009, you are grandfathered under the 2009 requirements. The annual membership fee is only \$26 for first-year members and \$35 thereafter. Family memberships are also available.

Even if you do not think you are interested in pursuing an LM ranking, a membership in the ACBL is a bargain for the 80-page, 8 ½ x 11 glossy monthly magazine you will receive. It is full of articles to improve your bridge, letters to the editor, tournament schedules and results, obituaries, minimal advertising (all bridge related) and a few other miscellaneous articles. You will also receive a bimonthly newspaper type newsletter from District 16 which includes most of Texas and all of Mexico.

If you wish to become a member it is recommended that you join online – see website blow. **If you do join, please enter 226415 for the “Recruiting Club Number” and O200109 for the “Recruiting Player Number” on your application form.**
